

Snga Sterilizer 申嘉消毒机

Product characteristics 产品特性

- 1** Rapid purification: plasma technology is adopted to improve the effective reaction efficiency

快速净化：采用等离子体技术，有效反应效率得到提高。

- 2** Active purification: purification factors will take the initiative to spread into the air, active decomposition of pollution sources in the air, comprehensive air purification

主动净化：净化因子会主动散布到空气中，主动分解空气中的污染源，全面净化空气。

- 3** Safe purification: the purification factors produced will all be reduced to natural substances, without secondary pollution

安全净化：产生的净化因子会全部还原成自然界的物质，没有二次污染。

- 4** Zero harm to human body: purification factor will not have any impact on human body

对人体零伤害：净化因子不会对人体产生任何影响

- 5** Easy to use: easy to install, plug and play

安装/使用简便：安装简便，即插即用。

Technical Parameters 技术参数

| | |
|-----------------------|-------------------------|
| Model 型号 | SJ-DTX-1 |
| Rated Current 额定电流 | AC100-240V |
| Rated Power 额定功率 | 0.22 kg |
| Net Weight 产品净重 | L127mm × H127mm × W45mm |
| Active Area 有效面积 | 5-15m ² |
